

MORAVSKÁ GALERIE

Cities from an Artistic Mould

When you say 'art', is the first word that pops up in your mind 'gallery' or 'museum'? But art does not hide only in these buildings. You will run into works of art even on your way to school. When you are attentive you will see many sculptures on the streets or in the parks, different paintings, mosaics, reliefs on the walls, even decals and sprayed templates which are part of contemporary street art. In addition, there are a great many houses in the city that are so interesting and exceptional that we might consider them art without hesitation.

For those of you who are not afraid of discovering and will gladly take their fantasy out for a walk, we have prepared a series of cut-outs that will give you a clue in your search. And you can use them later to build a model of a part of a city that will be cut from a different cloth.
